

# Air Control Boxes

PRODUCT  
FACT  
SHEET

The range of TS Global air control boxes are available in single or multiple outlet models and are designed to control air quality and pressure to air tensioned cleaners. All models feature a sealed and lockable cabinet that protects all controls and settings.

Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.

## Application

Suitable for air tensioned cleaners.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery

| FEATURES  | BENEFITS   |
|---|--|
| Stainless steel, weatherproof, sloped roof cabinet  | <ul style="list-style-type: none"> <li>= Easy access via hinged door</li> <li>= Increases life expectancy</li> <li>= Reduces build up on top of panel</li> </ul> |
| Pressure regulation                                 | = Allows fine tuning of air pressure to cleaner to maximise performance  |
| Plant air is filtered, moisture removed and drained | = Reduced impurities in cleaner operating assemblies   |
| Quick exhaust valves                                | = Provides safe dump of air during maintenance   |
| Stainless steel fittings and valves                 | = Increases product life expectancy  |
| Lockable cabinet                                    | <ul style="list-style-type: none"> <li>= Controlled access for maintenance personnel</li> <li>= Reduces tampering by unauthorised persons</li> </ul>             |
| External lockable valves                            | <ul style="list-style-type: none"> <li>= Increases safety during isolation</li> <li>= Accessible for emergency isolation</li> </ul>                              |
| Quality assured product                             | = All panels are inspected and pressure tested following assembly  |
