

Work Health & Safety Policy

OUR COMMITMENT

TS Global Pty Ltd is committed to maintaining a safe and healthy workplace for our workers, contractors, and visitors. We aim to be recognised as a leader in our Health, Safety and Performance, and set high standards to manage health and safety risks both at our worksites and our clients' sites. We endeavour to continually improve our Health and Safety Systems as we strive towards our goal of Zero Harm.

OUR OBJECTIVES

- Comply with relevant legislative requirements, industry codes of practice, company needs, client expectations and project requirements.
- Demonstrate visible leadership and direction through our Health and Safety plans that contain measurable objectives and targets that improve health and safety performance and specify health and safety accountabilities at all levels of our business.
- Have effective Risk Management processes that identify, eliminate, or effectively control health and safety hazards.
- Demonstrate a 'beyond compliance' approach to Health and Safety management systems that continually monitor and review Health and Safety performance.
- Provide regular information, instruction, and training to ensure employees and contractors understand their responsibility for their own health and safety as well as the health and safety of their workmates and anyone that may be potentially impacted by their actions or omissions.
- Commit to continually improving our health and safety culture through the engagement of our employees, contractors, and stakeholders through regular and various consultation practices.

MONITORING

TS Global will maintain a suite of procedures as part of our management system, outlining how and when this policy is applied. This policy will be reviewed every two (2) years.
